

Bharat Sanchar Nigam Limited (BSNL) has launched the Digital Gram Sewaks initiative under which local entrepreneurs in rural areas would provide Bharatfibre connections to rural homes using BSNL's network.

The local entrepreneurs or partners will be given a revenue share for maintaining the last mile connectivity to the customers. In addition, the operator is also partnering with education entertainment content providers for this initiative.

Under this initiative, BSNL would be offering options of daily data download ranging from 5GB to 50GB data per day at speeds of up to 100Mbps.

BSNL has requested all state governments to support the operator's initiative.
