

## Reliance Jio launches JioNews, a consolidated news and media offering

Sales & Marketing, April 12, 2019

---

Reliance Jio has launched JioNews, its consolidated news and media offering, on both the mobile and web platforms. JioNews gives users' access to JioXpressNews, JioMags and JioNewsPaper with additional benefits of live TV and videos.

JioNews aggregates content from over 150 live news channels, 800 magazines, 250 newspapers, blogs and news websites from across India and the world. The app will also allow users to access the app in over 12 Indian languages in order to have a personalised reading experience.

The app leverages integrated artificial intelligence and machine learning technologies that enable it to scan thousands of news sources and bring the most relevant content to its users.

As per the company, existing users of these mobile applications will be migrated to JioNews. Jio users in particular will be given premium access to all of its features. Non-Jio subscribers will need to sign up for a trial period to access all the features of the app.

JioNews is available for download on both the Google Play Store and Apple App Store.
